BOARD OF COUNTY COMMISSIONERS

OKLAHOMA COUNTY

OKLAHOMA CITY - *Tuesday*

My dear daughter. Guess I'll put down a few things on paper to you & send it Special Delivery. It may not be too cheerful tho for it's cloudy & chilly & today is the first of our Memorials. I wonder if you knew the boys from Capitol Hill. At noon all the radios were going softly down town & once again people's faces looked sad & "heavy laden". Ethel told me they had arrangements made already for several of the boys from the Belgian cemetery. She said the ceremonies at the Capitol were were impressive. Johnnie wrote me that he didn't think he could make it - but I sent him \$15 so that he would get it this a.m. in case he could. Do hope he made it. I went to Mrs. Dunn's - they held it at the funeral - very cozy. They go on Calvary Church and of course they go on & on about "She's gone" - on this realm of sorrow and vale of tears will see her no more - No we'll see her who

has been a mother to you & \$, no more! until everyone was ready to scream. They can't help being ignorant. Then he recited, with gestures - "Sunset & Evening Star" - & the way he said it was in a scanning rhythm. sort of "The Star or Eve" type. His only redeeming feature was his very evident sincerity. Bro. Hance said a few words and then the pastor from Temple Bapt. said a few words. The flowers were beautiful. Krys I die either in pomegranate or chrysanthemum & dahlia time. They look so sturdy & indestructible to me.

As to what happened to the Calvert party. The Commodore couldn't accommodate them & had made arrangements at another hotel for them & Raymond had not given them your address.

Mrs. W. fell thru a hole into a storage place under the porch & hurt her leg very seriously. She can hardly walk. I'm afraid she cracked her knee cap.

Can you imagine the weather here. In the back bedroom, even. I've slept only under a sheet. I think it is changing today, but strangely my leg feels better. I see by the paper that the N.Y. Nurses Assn. has received into full membership the colored nurses, which I

think is fitting & proper.
Mrs. Boucher tells me, that Rayburn Jones is dating Jack Leach's widow pretty steadily. She said she is so nice & he seems attentive to her. He had been ~~out~~ at the school for lunch & had gone to the Teachers' picnic with her.

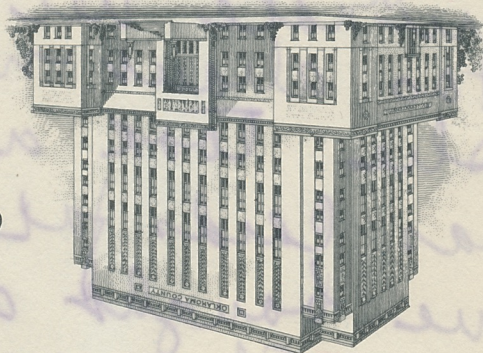

I suspected that Bernie ~~was~~ ^{is} Jewish - is he Orthodox or Christian Jew? The fact that he is Jewish ^{wouldn't} worry me if he is a Christian Jew, but if he isn't then I think you are most wise to guard your heart against a feeling that would bring you a great deal of pain. Speaking of romance - I'm going to try to get Jack Wilson & the girl in the Co. Agents office together. They would be fine. She is slender & dark - tall too and a nice looking girl - very nice & would let him dominate her just enough. She is prudent too about money matters. For instance she took a box of last years Christmas cards for 75¢ when she could have bought a brand new 1947 box for 1.00. She watches those little things.

Since I can't be with you over
 the week end - much as I would love
 too - let me buy the Sunday meat
 for all of you & pretend that I'm
 there too & if my youngest is with
 you kiss him for me and wish
 him a happy birthday from
 His & your
 Loving
 Mother.
